- Bosch Security Systems is the only manufacturer with intrusion detectors in every major category.
- Bosch Security Systems continues to innovate, providing the longest range and highest mounting height along with the highest security.
- Bosch Security Systems detectors are the most reliable, employing the best processing and the best optical designs.
- Bosch Security Systems detectors are the easiest to install, which results in reduced installation costs and less call backs.

Featured Products – see catalog for full line of Intrusion Sensors

Standard Wall Mount PIR DS940

Feature	Benefit
First Step Processing	One step catch performance of people, full processing for false alarm signals
7-Layer Lens	No adjustments, mounting height from 7½ to 9 feet

Commercial PIR DS775

Feature	Benefit
Pointable Mirrored Optics	Flexibility for multiple mounting heights
Long Range Option	Cost competitive 120 foot by 10 foot option
Single Gang Box Mount	Easy pre-wire

Long Range PIR DS778

Feature	Benefit
High Efficiency LED	Viewable throughout detector range; improved installation efficiency
Aesthetically Pleasing Design	Smaller, more unobtrusive than competitive long range detectors
Low Cost Short Range Option	Use DS775 for shorter range option with consistent appearance

Ceiling Mount PIR DS939

Feature	Benefit
25 Foot Mounting Height	Highest in the industry, able to meet needs of more applications
Hinged Mounting Plate and Chassis Design	Easier and safer installation
High Efficiency LED	Viewable throughout detector range; improved installation efficiency

Pet Immune PIR DS940P

Feature	Benefit
30 lb. Pet Immunity	Eliminates false alarms from pets
First Step Processing	One step catch performance of people, full processing for false alarm signals
7-Layer Lens	No adjustments, mounting height from 7½ to 9 feet

High Security PIR DS308EA

Feature	Benefit
Anti-Mask Detection	Eliminates sabotage
Q-MAP Processing	Eliminates false alarms from rodents/drafts
Motion Monitor	Ensures detector has clear view of coverage area

Quad PIR DS940Q

Feature	Benefit
Two PIRs in One Cabinet	Reduced false alarms
No adjustments	Improves installation efficiency
No restrictions	Able to meet more application requirements
First Step Processing	One step catch performance of people, full processing for false alarm signals

Request-to-Exit PIR DS150i

Feature	Benefit
Pointable Coverage	Allows ceiling/wall mounting and ability to adjust range
Two Form "C" Relay Contact Sets	Ability to control multiple, isolated devices
Relay Mode Selection	Ability to support multiple system types
C-Shape Coverage Pattern	Detection from all directions

Pet Immune PIR/Microwave DS835i

Feature	Benefit
No adjustments	Improves installation efficiency
No restrictions	Able to meet more application requirements
First Step Processing	One step catch performance of people, full processing for false alarm signals
100 lb. Pet Immunity	Eliminates false alarms from pets

Wall Mount PIR/Microwave DS860

Feature	Benefit
TriTech Performance	Combines PIR, Microwave and Patented Signal Processing to eliminate false alarms
Long Range Option	Cost competitive 100 ft by 10 ft option
Single Gang Box Mount	Easy pre-wire

Long Range PIR/Microwave DS720i

Feature	Benefit
High Efficiency LED	Viewable throughout detector range; improved installation efficiency
Anti-Mask Detection	Eliminates sabotage
Motion Monitor	Ensures detector has clear view of coverage area
300 Foot Coverage	Longest range in the industry

Ceiling Mount PIR/Microwave DS9370

Feature	Benefit
25 Foot Mounting Height	Highest in the industry, able to meet needs of more applications
Hinged Mounting Plate & Chassis Design	Easier and safer installation
High Efficiency LED	Viewable throughout detector range; improved installation efficiency
TriTech Performance	Combines PIR, Microwave and Patented Signal Processing to eliminate false alarms

Outdoor Photoelectric DS476

Feature	Benefit
Quad Beam Design	Reduces false alarms, must block all four beams to cause an alarm
And/Or Mode	Adds security by eliminating crawl through
Multi-Channel Design	Allows stacking of multiple beams

Pet Immune Quad PIR DS940QP

Feature	Benefit
Two PIRs in One Cabinet	Reduced false alarms
No adjustments	Improves installation efficiency
No restrictions	Able to meet more application requirements
First Step Processing	One step catch performance of people, full processing for false alarm signals
80 lb. Pet Immunity	Eliminates false alarms from pets

Outdoor PIR/Microwave OD850

Feature	Benefit
Linear Travel Distance (LTD) Signal Processing	Eliminates false alarms from objects that move but don't travel
High Efficiency LED	Viewable throughout detector range; improved installation efficiency
And/Or Mode	Adds security by allowing alarm on single technology

Seismic Safe & Vault DS1525/DS1535

Feature	Benefit
Three Distinct Detection Methods	Provides ability to detect multiple types of attack
DS1535	Specially designed for ATM applications
DS1525	Specially designed for safes and vaults

Audio Glass Break DS1100i Series

Feature	Benefit
Sound Analysis Technology	Reduces false alarms
Sound Check Feature	Allows user to confirm sensor operation
Multiple Enclosure Designs	Flexibility for more installation types
DS1109i Option	Shorter range for close proximity to glass and provides appropriate sensitivity for smaller applications

Indoor Photoelectric DS415i

Feature	Benefit
AC/DC Operation	Allows transmitter to be powered separately, reducing wiring requirements
Easy Alignment	Reduces installation complexity
